

**SPECIFIC ADMISSION REQUIREMENTS FOR
STUDENT EXCHANGE PROGRAMS 2021-2022
BCI – UQAM**

Specific admission criteria for some programs are listed in this document. The programs are indexed first by level of study (undergraduate and postgraduate) and then by faculty. Exchange students can find all necessary and pertinent information to verify their admissibility at UQAM according to their desired program.

PROGRAM SELECTION

- ✓ The candidate must identify **only one program of studies** in the application form.
- ✓ The chosen program must be part the **study programs open to exchange students**, otherwise the application will not be considered. This list of programs can be found on the BCI website in the UQAM section.
- ✓ The candidate must ensure to have the **required minimum average** in order to access the desired program. Students seeking to apply for the 2nd year of an undergraduate program must also include their academic results of the Fall semester of their 1st university academic year when filing their application. The minimal grade published is the grade of the studies done in France. An **equivalency chart** is included for other countries at the end of this document.
- ✓ In order to be admitted, candidates must be enrolled at their home institution in a discipline related to the identified program at UQAM.
- ✓ Certain programs have limited enrolment for exchange students. This information can be found in this document.
- ✓ Certain study programs are unable to accept students for the full academic year or, on the contrary, only for the full academic year. In some programs, students could be admitted either for the Fall semester only or the Winter semester. Be sure to consider this when choosing a program of studies at UQAM and filling out the BCI form.

ADMISSION CRITERIA - GRADUATE STUDIES

- ✓ Certain Master's programs (or DESS) require 16 years of schooling (equivalent of Master 1) before participating in an exchange program with UQAM. The list of these programs can be found at the end of this document.
- ✓ Candidates completing their 4th year in a field of study leading to an **engineer degree** in France are not eligible for the postgraduate programs (Master's or DESS) since they have not received their engineer degree at the time of their arrival at UQAM, even if they have completed 16 years of schooling (undergraduate +4). However, these candidates have access to undergraduate studies.
- ✓ Courses are offered in French at UQAM. The minimum accepted level of French is B2 (Intermediate/Advanced) according to the CEFR Common European Framework of Reference for Languages (CEFR).

COURSE SELECTION

- ✓ The candidate must use the course selection form, which can be found on the BCI website.
- ✓ The candidate must provide a course selection from **one study program and one cycle of studies only** (undergraduate or postgraduate programs).
- ✓ Information on the study programs, course descriptions as well as course schedules are accessible at the following link : etudier.uqam.ca/programmes
- ✓ For further information about the courses, please refer to the section *Étapes* on the SRI (International relations services) website.

INTERNSHIPS AND RESEARCH SUPERVISION

IMPORTANT - Off-campus internships **are not available for exchange students**, and all research supervision must be assumed by the student's home institution.
